L/O: Can I identify 2D shapes from their properties?

Read the riddles below and work out which 2D shape is being described. Write the name of each shape next to the riddle. The pictures might help but can you remember what all of the shapes are called?

1	I am a 2D shape. I have one curved side. I have no corners.	What shape am I?
2	I am a 2D shape. I have four sides and four corners. All four sides are the same length.	What shape am I?
3	I am a 2D shape. I have five straight sides. I have five corners.	What shape am I?
4	I am a 2D shape. I have six straight sides. I have six corners.	What shape am I?
5	I am a 2D shape. I have four sides and four corners. I have two longer sides and two shorter sides.	What shape am I?
6	I am a 2D shape. I have eight straight sides. I have eight corners.	What shape am I?

One of the shapes is missing its riddle. Can you write one for it?
