

Message from School Parliament:

**Please Recycle
your Milk Bottle Tops**

School parliament are collecting plastic milk bottle tops to support **Friends of Water Search and Rescue Team (FoWSAR)** a charity which supports the importance of the Water Search and Rescue Team

[Who are we – Friends of Water Search and Rescue Team \(fowsart.org.uk\)](http://fowsart.org.uk)

The recycling firm weighs the tops and for a given weight makes a donation to the Friends of Water Search and Rescue Team charity.

These milk bottle tops are then turned into pellets that go into the manufacture of items such as traffic bollards and traffic cones.

They can only recycle:

Any standard size plastic milk bottle tops

They can not accept any other plastic lid, with either different recycling numbers or no recycling mark, these are of a different quality and would therefore contaminate the recycling process.

PLEASE WASH ALL TOPS BEFORE THEY COME INTO SCHOOL

The class that collects the most milk bottle tops will have a treat.

Thank you for your support

School Parliament members
