

Dear Parents/Carers,

Welcome to issue 5 of the Newdale SEND Newsletter. In this edition, we would like to show you the SEND provision in our Nursery. Mrs Pablos and her brilliant team work tirelessly to ensure the children are given the best possible start and support with their learning and our nursery staff are always adapting and introducing new provisions to meet the children's needs and support their transition to primary school.

As always, please get in touch if you require any support via newdalesendco@taw.org.uk

SEND Provision at Newdale Nursery

Speech and Language

Screening Tool

We use Stoke Speaks Out as our communication screening tool.

For further information, please visit:

www.stokespeaks.org

Time to Listen

Suitable for children aged 2—3 years, this intervention is used to develop children's social interaction skills and improve their oral language.

The intervention takes place 3 times per week, for 15 minutes.

Early Talk Boost

Suitable for children aged 3—4, this intervention acts as a catch up programme for children who are struggling with talking and understanding words.

This intervention takes place 3 times per week, for 15 weeks and acts a tool for improving children's confidence around communication.

Attention Bucket

To support children with Autism, this 1:1 intervention is used to develop the child's focus and attention, by providing fun-filled, engaging toys for them to interact with. This helps to gain shared attention, through simple, repetitive language from the adult.

Intensive Interaction

This is an approach used to develop positive social communication with children who have social or communication impairments.

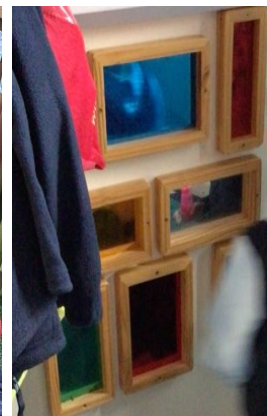

It involves watching closely how a child responds to different situations through their body language, voice and facial expressions. Following this, the child receives support to develop their eye contact, social behaviours and developing vocalisations

Musical Interaction Booster

This intervention enables children to express their emotions and personality through musical play, whilst also developing their fundamental social and communication skills.
