

# Cyber Security Policy

**Version 2**

Model policy- T&W Safeguarding data protection team

**November 2025**

**To be reviewed November 2026**

**Definition of Cyber Security:** Application of technologies, processes and controls to protect systems, networks and data from cyber-attacks.

## Introduction

The protection of information and communication technologies (ICT) within a school environment is paramount. This Cyber Security Policy aims to establish a framework for maintaining the security and integrity of digital resources, protecting personal data, and ensuring a safe digital environment for students, staff, and stakeholders.

This policy is aligned with the requirements of the Department for Education and National Cyber Security Centre.

## Scope

This policy applies to all students, staff, governors and external partners, who have access to school ICT resources.

## Objectives

- To protect the confidentiality, integrity, and availability of digital information.
- To safeguard the personal data of students, staff, and stakeholders.
- To ensure compliance with relevant legal and regulatory requirements.
- To foster a culture of cyber security awareness and responsibility.
- To respond effectively to cyber security incidents and breaches.

## Roles and Responsibilities

The named ICT and E-safety co-ordinators in this school are:

- Rachel Cook (Headteacher)
- Jessica Hill (E-Safety Lead)
- Anthony Smith & Amanda Price (Chairs of Governors)
- Daniel Clark (Telford and Wrekin IDT Technician)

## School Administration

The administration is responsible for:

- Ensuring the development and implementation of the cyber security policy.
- Ensuring adequate resources are allocated for cyber security measures.
- Overseeing cyber security training and awareness programs.
- Reviewing and updating the policy periodically.

## IT Support

IT support is tasked with:

- Maintaining and securing the school's IT infrastructure.

- Implementing technical measures to protect against cyber threats including:
  - Use of anti-malware and firewalls
  - Regular patching and software updates
  - Secure configuration of devices and networks
  - Use of Multi-Factor Authentication (MFA) for staff and privileged accounts
  - Controls over user accounts and access privileges including a review of accounts and prompt removal of leavers
- Monitoring network activity for potential security breaches.
- Responding to and mitigating the effects of cyber security incidents.
- Back-ups are periodically tested with at least one back up kept offline
- Provide web filtering and monitoring of internet access to prevent access to malicious sites

## Staff

All staff members must:

- Adhere to the cyber security policy and procedures.
- Participate in cyber security training and awareness programs.
- Report any suspicious activities or security incidents.
- Safeguard their login password.
- Use MFA where possible

## Students

Students have the responsibility to:

- Follow the school's cyber security guidelines and rules.
- Respect the privacy and security of others.
- Report any cyber security concerns to a teacher or other school staff.

## Acceptable Use Policy

All users of the school's IT resources must adhere to the Information Security Policy, which includes:

- Using school IT resources for educational purposes only.
- Not accessing, sharing, or downloading inappropriate content.
- Respecting intellectual property rights and avoiding plagiarism.
- Not engaging in cyberbullying, harassment, etc.
- Protecting personal information and not sharing login details.

## Data Protection

The school is committed to protecting the personal data it processes. Measures include:

- Where necessary, encrypting sensitive data to prevent unauthorised access.
- Regularly updating software and systems to address vulnerabilities.
- Implementing access controls to restrict data access based on roles.
- Conducting data audits to ensure compliance with data protection laws.

## Cyber Security Training and Awareness

To ensure a culture of security:

- Training sessions will be conducted for staff and students.

DfE Cyber Security Standards - [Meeting digital and technology standards in schools and colleges - Cyber security standards for schools and colleges - Guidance - GOV.UK](#)
