

SEND

Autumn 1

Dear Parents/Carers,

It has been lovely to see how well children have settled into their new classes, routines and learning environments. SEND support has continued to be embedded throughout the school day, with classroom adaptations, targeted interventions and additional provision in place to help pupils access learning successfully. SEND targets have also been set, based on current assessments and classroom observations and these will be reviewed regularly to ensure children continue to make positive progress. We look forward to working closely with families throughout the year to support every child's success and wellbeing.

If you have any questions or require support, please get in touch via newdalesendco@taw.org.uk

Kind regards,
Mr McFarland

Healthier Together
<https://stw-healthiertogether.nhs.uk/>

Improving the health of babies, children and young people throughout Shropshire, Telford and Wrekin

Support • Guidance • Next Steps

Appointments available every Wednesday From 8.45am

Alternative times/days available upon request.

If your child is on the school's SEND register or you are concerned that they may need additional support, you can book an appointment with our SENDCO, Mr McFarland.

Appointments are a chance to:

Discuss your child's progress

Share any concerns

Receive guidance and advice on next steps

Get support at home

Help with paperwork and referrals

We're here to help!

Please book via **newdalesendco@taw.org.uk** or by contacting the school office.

Meet our EP (Educational Psychologist) – Dr Daniel Cumber

Dan is a HCPC registered Consultant Educational, Child and Community Psychologist who supports the wellbeing and development of children and young people, their families and school staff through applied psychology. Dan offers consultation, supervision, organisational development, training, and direct work with children. Dan's services cater to schools and families, with a focus on ethical, evidence-based practices and promoting inclusion and social justice.

As consultation places are very limited, referrals are coordinated by Mr McFarland. Referrals are prioritised based on a child's individual needs and are informed by classroom observations, assessment information, progress data and the support already in place. This process helps ensure that specialist consultation is directed to those children with the most significant or complex needs.

Their Children's Autism Hub is available to children and young people aged 0-18, and their families, offering support for those with a formal diagnosis of Autism. They also provide pre-diagnostic support for families who are on the Autism assessment pathway.

Telford Children Autism Hub supports individuals and their families/carers by:

- Giving helpful, relevant advice, information and signposting;
- Providing workshops where young people and families can receive support in a group setting.
- Supporting parents to plan and implement strategies within the ASD care plan
- Facilitating group support for children and young people and their parents/carers
